

Colophon

The animal on the cover of *Efficient Node.js* is the red-billed pigeon (*Patagioenas flavirostris*), a large, robust species of pigeon whose primary range extends from Costa Rica through Mexico. They may also be found in southernmost Texas, along a limited stretch of the Rio Grande.

Typical of many species in this region, relatively little is known about the red-billed pigeon. They reportedly eat acorns, seeds, and plant buds that are foraged in the dry forest and riverside wetland habitats where they nest and breed. Their distinctive call has been described as a long, high-pitched “Coooo!” followed by three “Cuk-c’-c’-coo” notes.

The red-billed pigeon has been categorized by the IUCN as being of least concern, from a conservation standpoint. Many of the animals on O’Reilly covers are endangered; all of them are important to the world.

The cover illustration is by Karen Montgomery, based on an antique line engraving from Shaw’s *Zoology*. The series design is by Edie Freedman, Ellie Volckhausen, and Karen Montgomery. The cover fonts are Gilroy Semibold and Guardian Sans. The text font is Adobe Minion Pro; the heading font is Adobe Myriad Condensed; and the code font is Dalton Maag’s Ubuntu Mono.
